Public Announcement

This is to inform the general public that the Ministry of Infrastructure and Transport in collaboration with the Local Governments and Desuung Office will be carrying out enumeration of households across Thimphu and Phuentsholing from May till June 2023. This is being done to allocate finalized building and unit numbers and institute the City and Street Addressing System for Thimphu and Phuentsholing. Further, this initiative will also help in developing a robust building database that is critical for effective and efficient public service delivery.

During the first phase, the officials from the Ministry, respective local governments and the Desuups will be carrying out enumeration and pasting QR codes containing **Building** and **Units Numbers** so that the physical data collection in the future could be minimized. The existing building and unit numbers will no longer be relevant after the completion of this initiative.

In view of the importance of the initiative, we would like to kindly request that all the residents and property owners extend full support and furnish correct details during the enumeration. We thank you for your continued support and cooperation.

Secretary
Ministry of Infrastructure and Transport
